

ENGINEERED TO FIT 1/2" THROUGH 1" BACKFLOW PREVENTION DEVICE INSTALLATIONS  
#251

**SPECIFICATION:**  
BFPProducts Inc. enclosures are manufactured and designed to be used to help protect Backflow Prevention Devices from freezing conditions and vandalism. Factory assembled construction will include a gelcoat shell backed with chop-strand polyresin bonded fiberglass, internally insulated using polyurethane spray-foam.  
WEIGHT: 11 LBS

**Options:**

- HEAT SOURCE – HEAT TAPE #430
- T-TURF – Turf installations require elevated discharge drain to facilitate flange bury.
