

# Backflow Enclosure Heater

## TECHNOLOGY

Utilizes advanced semi-conducting, self temperature regulating heating modules.

Independently Certified:  
Imanna Laborites

IPX7 Waterproof  
(exceeds ASSE-1060 Class 1)

ISO 8846

SAE J1171

(safe for use in environments with known combustible gases)

Long life Stainless Steel heating module  
50,000 hour ball bearing fans  
Anodized aircraft aluminum housing

## SPECIFICATIONS

- Model# HU800SS
- Thermostatically controlled  
Auto on 40°F/ off 52°F
- Voltage- 120v AC (Nominal)
- Power- 800w, 7 amps
- Housing- Anodized Aluminum
- Fan- 85cfm @ 5000 rpm 52dB(A)
- Mounting hardware- ¼" bolt
- All electrical connections individually encapsulated and sealed
